

ARDEX TLT™ Niches

The ARDEX TLT™ Niche is a prefabricated open storage space that is installed within the wall of your shower. These niches are thin, ultra-lightweight, waterproof and vapor-resistant. Additionally, the niches are manufactured out of the same foam as the ARDEX TLT™ Building Panels with a proprietary blend of synthetic polymer mortar and an alkali resistant fiber mesh, making them strong and durable. Each niche comes with an adjustable shower shelf. Easy to install and ready to tile.

ARDEX TLT™ Niches:

- Pre-waterproof
- Lightweight
- Vapor-resistant
- Multiple sizes available
- Easily move shelf up or down for custom usage
- Easy to install & ready for tile
- For use with any wall tile shower system
