ARDEX K 525™

Natural Gray with Blended Dark Aggregates

01

ARDEX K 525™ complements various design themes, from modern minimalism to rustic charm. A traditional, seamless appearance creates a clean, cohesive look that complements other design elements, to provide a backdrop for broad range of spaces from show rooms and retail to labs and coffee shops.

02

ARDEX K 520™

Natural Gray with Fine Aggregate

ARDEX K 520™ is the Polished Concrete floor that gleams softly beneath the ambient lighting, their smooth, reflective surface adding an element of modern sophistication to the space. The rich, warm gray tones of the concrete subtly complement the carefully chosen furnishings that decorate the room, creating balance between industrial chic and timeless beauty.

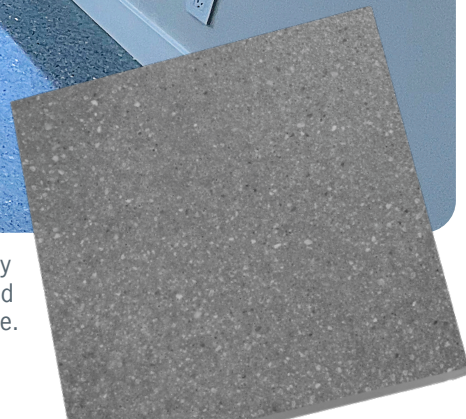

ARDEX K 521™

Natural Gray with Light Aggregates

03

ARDEX K 521™ provides a modern look for nearly every space. With a natural gray tone and white aggregate reveal, it creates a nice separation of light and dark to create a unique appearance.

04

ARDEX K 523™

Natural Gray with Blended Light and Dark Aggregates

ARDEX K 523™ is a prime example of a unique approach to a polished concrete floor. Featuring a blend of shattered black and light aggregate, ARDEX K 523™ provides a one-of-a-kind contemporary appearance.

ARDEX K 530™

White Decorative Concrete Overlay

05

ARDEX K 530™ is the ultimate pallet for creativity. Its bright white natural concrete tone allows vibrant pigment and bright aggregates to stand out. Whether the design calls for a clean white appearance or a custom color ARDEX K 530™ is ultimate canvas from which to create that custom look.

06

ARDEX SD-M™

Designer Floor Finish™ (Available in White and Gray)

This shopping mall's common area radiates sophistication, where the decorative concrete floor serves as both a functional foundation and a striking design element. The intricate patterns and rich textures in the polished concrete create a visually captivating contrast against the sleek, elegant staircase that rises gracefully nearby.
